BEHAVIORAL HEALTH

OUR COMMITMENT TO ACCESS:

The ASH LLC Community Mental Health Center provides accessible behavioral healthcare services aimed at reducing social inequities and promoting the well-being of all individuals. We are committed to ensuring that services are available, affordable, and equitable and provided in a timely matter. We strive to remove barriers to access, including financial constraints, geographic location, language, and cultural differences.

We welcome individuals of diverse backgrounds and communities, individuals who may be undocumented, and individuals who are under or uninsured. We provide behavioral healthcare services to residents and alumni of ASHF housing programs and to individuals not connected to an ASHF program. It is not a requirement for those seeking or receiving services to be a resident of an ASHF program.

The ASH LLC Community Mental Health Center is committed to supporting the behavioral healthcare needs of those in our community. We believe that access to behavioral health services a fundamental right and we strive to provide compassionate and quality care to individuals and families from all backgrounds.
